Dear All,

We have come to the end of another academic session, filled with learning, exciting events and achievements.

I would like to thank our talented students, staff and parents for their continuous commitment and partnership with our school which has greatly contributed to its success.

We continue to welcome feedback from all stakeholders to help us in achieving our on-going goal of improving student learning.

We are planning many more exciting projects for the upcoming academic session, for our students and will continue to focus on our essential role in developing well-rounded individuals.

We hope that our parents will be partners in this journey and will encourage their children to actively participate in all opportunities that are created for them at school.

We also look forward to an exciting year ahead with several improvements in the infrastructure of our school over the summer break.

Happy Holidays!

Please feel free to contact me if you wish to discuss any particular issue or concern.

Finally, best wishes to our X-C and XI-C students for their Cambridge International Examination results.
